## Extreme Weather Roof Exhausters

The Carnes model VLBK extreme weather roof exhauster is the fan to use when the unit will be exposed to adverse environmental conditions. The VLBK roof exhauster is designed to handle high winds, windblown debris and includes the following advantages:

- Low profile and wind resistant
- Attractive appearance
- Rugged materials meeting Florida and Dade County STD
- Easy 3 Step Installation
- Broad range of sizes
- Watertight construction
- Economical
- Low Maintenance

Miami-Dade County, FL
